# A Reason for the Seasons...

## SWIM

Only 40 feet from the cabin to the waters edge! "Sandy Beach" is the nicest swimming area on Lake Gogebic.

## RIDE

Located in the center of the #1 trail system in the midwest on Gogebic's north shore between Bergland and Merriweather. This area boasts 350 inches annual snowfall!

## FISH

Being the largest lake in Michigan's Upper Peninsula, Lake Gogebic's 13,000 acres offer trophy perch and excellent walleye & smallmouth bass fishing in all seasons. If you wish, you may choose to hire a guide to show you where the really big ones are! Bait can be purchased nearby and our boat lift can handle larger boats.

## HUNT

The surrounding Ottawa National Forest offers endless opportunities for grouse, deer, and bear hunting.

## SKI

Challenging ski runs await you at the nearby popular ski resorts of the Porkies, Indianhead and Powderhorn. All resorts are within 1/2 hour of the cabin.

## SIGHTSEEING

Plan an adventure away from the cabin and see what the U.P. has to offer! Don't miss Lake of the Clouds, the Porcupine Mountains, the vistas of Lake Superior, and incredible area waterfalls.
