

Tower Shoot Rules/Talk

Procedure

Blinds are located around the tower. 2 shooters per blind. 14 blinds.

A flag is waved and the "round" begins.

20 birds released one at a time, hunter shoot birds, dogs retrieve.

Pace is determined by wind.

Flag up, round ends.

Shooters rotate clockwise to next blind. Please pick up shells.

Safety

Eye Protection is mandatory! Falling shot.

Ear Protection is a really good idea.

No Alcohol before Tower Shoot or any follow up hunt.

Safe Fields of fire. Nothing under 40°. Be aware of other blinds, handlers, dogs.

NO GROUND SWATTING AND NO DIRECT FIRE AT THE TOWER.

Muzzles up and guns unloaded between blinds.

No shooting between rounds (goes with ^ but has happened in the past)

Shot size

Dogs/Clean Birds

Dogs will retrieve all birds.

Handlers located between blinds or where best to retrieve.

Dogs and Handlers will rotate counter-clockwise.

Clean Birds will be available after the hunt based on number shot by the group. (%)

Pot Pies, Smoked Birds, Snack sticks, etc. also available.

Parking/Directions/Tips/Follow Up Hunt

Give birds lots of lead, especially fast targets.

Need 3-4 boxes of shells minimum.

Organize Follow Up Hunt after in the Pit.

Directions- Left out the driveway. Left at end of the white fence. Left into pit.

PARK AS FAR IN AS POSSIBLE. Falling birds.

Car Pool if possible.

ASSIGN BLINDS ON THE WAY OUT. Pair up with someone and you will be assigned.
